PROFESSIONAL SUMMARY

Android developer with 2.5+ years shipping production-grade apps across E-commerce, B2B Healthcare, CRM and Event Networking. Expert in Kotlin, Jetpack Compose, Kotlin Multiplatform, Clean Architecture, and offline-first design. Mentors junior developers and drives team-wide coding standards.

PROFESSIONAL EXPERIENCE

Rigyasa Technologies

Jul 2025 - Present

Senior Android Developer

- Defined Android architecture from scratch: Clean Architecture + MVVM with Jetpack Compose.
- Mentored 1-2 junior developers via design reviews and pair programming.
- Shipped modular features using Ktor, Kotlinx Serialization, SQLDelight, Koin DI.
- Implemented offline-first architecture with full online sync.

Vilki Medicart

Jul 2024 - Jun 2025

Application Developer (Android / iOS)

- Built core modules of a B2B healthcare marketplace - product catalog, order workflows, inventory search.
- Integrated Razorpay SDK end-to-end for live transactions.
- Maintained release cadence with minimal regressions in a fast-paced product environment.

Socialseller Technologies

Dec 2023 - Jun 2024

Android Developer

- Built responsive Compose UI screens and integrated third-party APIs / SDKs.
- Resolved memory leaks using Android Profiler & LeakCanary.
- Reduced APK size and cold-start time via lazy loading and deferred initialization.
- Refactored legacy UI to MVVM, improving testability.

NOTABLE PROJECTS

Maive - Fashion E-Commerce App - Full shopping flow with KMP-shared logic, Razorpay checkout.

JBN 360 Raipur - Event Networking - QR-based connections, digital ID cards, Firebase RTDB presence.

Korpkit - Business Management Suite - Multi-module CRM, HR, task & client management with RBAC.
